ABOUT ME

“ With 15 years of experience as an IT technician, I am reorienting myself in the field of Data. Driven by sharing and teamwork, I focus on analyzing needs to propose solutions that combine relevance and operational excellence.

Throughout my career, I have often played a guiding role, helping to structure and organize projects. My ability to play a facilitator role between different experts allows me to create a common language and optimize collaboration, thus contributing to the achievement of ambitious and innovative objectives. ”
